7" VENICE WI-FI MONITOR, WHITE. VIP

Art. 6854W is an Android door entry monitor compatible with the Comelit IP video entry system (ViP), with 7" touchscreen offering the same flexibility as a tablet and including the option of loading third-party apps. The apps must be verified and certified by Comelit to guarantee compatibility and to allow them to load. This means the user is offered a device which is no longer just a door entry monitor, but a controller for the home that can be used to manage the functions offered by systems from other manufacturers, for example home automation, intruder alarm and building services, as well as being used to access the internet and use pre-installed apps. The device has a LAN port and Wi-Fi connection to guarantee IP video entry system connection and the Internet connection required to use the installed apps.
